

Meet Our Founder/CEO of Girls Nite In International...

Jimmelynn Garland Rice

Having spent her career as an educator and professional musician, Jimmelynn Rice is a teacher and nurturer at heart.

While teaching at a public high school, life took an unexpected twist and Girls Nite In was born!

It is Jimme's calling and deep passion to provide refuge, hope, and guidance to this generation of young women.

A leader of mentors - Jimme is empowering and energizing a global network of women to mentor and influence this next generation!

A Movement Empowering HOPE!

Join us as we **mentor** and **empower** teen girls to make **wise choices** and become **strong, compassionate, bold** leaders.

The Girls Nite In Story A Movement of Hope!

A girls' high school restroom can be a heartbreaking place! A place where spats escalate, problems are unwisely hashed out and secrets exposed! But, it was while teaching at a public high school that the idea for Jimmelynn Rice's life-changing movement that seeks to bring hope and healing was born!

Rather than taking her break in the faculty lounge – Jimme began hanging out in the girls' restroom. You will learn a lot in a girls' restroom – if you care! Purgings, abuse, addiction, self-harm, sex, toxic relationships, self-worth, divorce, anxiety, and bullying dominated conversations.

Jimme could not get these girls' stories out of her head or her heart... and as a result, the Girls Nite In International Movement was born!

Planning to open up the basement of her home to 10-15 girls to address real-life, hard-core issues in a structured format - **imagine Rice's surprise when 55 girls showed up the first evening of Girls Nite In!!!**

Girls from 17 middle and high schools in the Indianapolis area began to attend GNI! The group quickly expanded to include college girls and young moms.

Jimmelynn strategically assessed that 'our teens do not live in a PG-13 world, but are trapped in R-rated and X-rated constantly. Our teen girls need a safe place to go where they feel welcome, wanted, valued, and loved ®!

*This **Safe Refuge** called Girls Nite In is a place where real struggles are addressed, guidance is given - which will enable them to make wise choices - and empowering, life-changing Truth is taught that will guide girls away from self-destructive behavior at a critical time in their lives and decision-making process!!*

GNI events offer a unique, **strategic 3-tier mentoring process** where we teach character-driven values and promote wise choices using Principles of Truth. A powerful evening designed to reach teen girls and is offered

FREE OF CHARGE!

More than 4,000 teen girls have been mentored through GNI! Successful, positive, engaging women have joined TEAM GNI across the country and around the globe as mentors and volunteers.

GNI International has launched affiliate groups in Georgia, Illinois, California, Indiana, Ohio, Tennessee, Oregon, and North Carolina, Argentina, and Nicaragua. Requests to launch the GNI program continue to pour in from communities across the world.

This Movement empowering HOPE is exploding across the nation... and around the globe!
